YSEEK, INC.  
NOTES TO FINANCIAL STATEMENTS  
MARCH 31, 2001

The information presented herein as of March 31, 2001, and for the three-months ended March 31, 2001 and 2000, is unaudited.

(1) Basis of Presentation:

The accompanying financial statements of Yseek, Inc. (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and item 310(b) of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal required adjustments) considered necessary for a fair presentation have been included.

Operating results for the three month period ended March 31, 2001, are not necessarily indicative of the results that may be expected for the year ending December 31, 2001. For further information, refer to the financial statements and footnotes included in the Company's annual report of Form 10-KSB for the year ended December 31, 2000.

Net loss per common share is computed in accordance with the requirements of Statement of Financial Accounting Standards No. 128 (SFAS 128). SFAS 128 requires net loss per share information to be computed using a simple weighted average of common shares outstanding during the periods presented. In computing diluted loss per share, warrants exercisable into common shares were excluded because the effect is antidilutive.

(2) Loss From Impairment of Assets:

In December 1999, the Company purchased all the outstanding stock of Rankstreet.com, Inc. The total purchase price of \$2,763,510 (including the value of contingent shares issued in May, 2000 and February, 2001) was classified as goodwill. The goodwill was being amortized over five years and as of December 31, 2000, accumulated amortization totaled \$525,082.

Additionally, during 2000 the Company contracted with consultants to develop a web site for Rankstreet. The web site was capitalized with a value of \$206,250 and was being amortized over three years. Accumulated amortization as of December 31, 2000 was \$59,289.

In April 2001, the existing management and Board of Directors of the Company resigned and were replaced by individuals with experience with internet based businesses. The new Board of Directors evaluated the website and the goodwill that was acquired in the purchase of Rankstreet.com, Inc. and deemed it to be impaired and of no future value to the Company. Therefore the assets were written down to zero resulting in a loss from impairment of \$2,368,201. This loss is reflected in the March 2001 statement of operations as loss from impairment

(3) Stock Transactions:

During January and February of 2001, the Company issued 150,000 shares of common stock to individuals and other entities for services performed during the first quarter of 2001. The Company recognized an expense of \$31,250, the market value of the shares less a 50% discount because the shares are unregistered and the Company stock is not easily marketable.

During January and February of 2001, the Company issued 200,000 and 125,000 shares of common stock under six month and one year consulting agreements, respectively. The Company recorded a prepaid expense of \$73,438 related to these agreements, the market value of the shares less a 50% discount because the shares are unregistered and the stock is not easily marketable. During the first quarter of 2001, the Company expensed \$30,859 utilizing the straight line method over the life of the agreements. Additionally, options were granted to an individual as part of one of the agreements. The option agreement allows for the purchase of 75,000 shares of Company common stock for \$.50 per share for a period of three years. The other consulting agreement included issuance of 500,000 warrants at an exercise price of \$.50 per share.

(3) Stock Transactions: (Continued)

-----  
During February 2001, the Company issued the final contingent 1,000,000 shares related to the 1999 business acquisition. The Company capitalized goodwill of \$203,100, the market value of the shares less a 50% discount because the shares are unregistered, are a significant block of stock and the Company stock is not easily marketable. See Note 2 regarding goodwill.

(4) Subsequent Events:

-----  
On April 9, 2001 the President of the Company resigned from all duties and responsibilities.

On April 23, 2001, the Company borrowed \$40,000 from a relative of an Board member. The note calls for interest at a rate of 14% per annum. Interest and principal are due in full on April 22, 2002. The note is uncollateralized.

Item 2. Management's Discussion and analysis of Financial Condition and Results of Operation

PLAN OF OPERATION

In the fourth quarter of 2000 and the first quarter of 2001, the Company entered into strategic alliances with companies and individuals with substantial experience in the Internet industry. The alliances allowed the Company to acquire management and marketing expertise through consulting agreements. Additionally, the Company acquired a ten-year software license for the use of a keyword biddable search engine and related domain names. Lastly, the Company entered into two traffic promotion agreements whereby each promoter will provide an aggregate of 45,000,000 hits to the Company web site. The Company issued stock in exchange for these agreements enabling the Company to move forward on its plans without the use of any funds.

In April 2001, the Company's officers resigned. Individuals affiliated with the consultants noted above were elected to the Board of Directors. These individuals have substantial experience with profitable Internet companies and web sites.

The Company's plans for the next twelve months include the launching of its search engine, Yseek.com. With the traffic promotion agreements in place, the Company believes there will be sufficient traffic to make the site a profitable internet portal. Additionally the Company's expansion plans include acquiring and developing other profitable business ventures.

In conjunction with planning the course of action for the next twelve months, the new Board of Directors investigated the viability of Rankstreet.com. Rankstreet was to be an all-in-one Web site including a directory, web counter and business to business Internet advertising agency. The Board determined that there was no value in pursuing the marketing and enhancement of the Rankstreet web site and has abandoned any such plans.

The Companies plans to market the Yseek.com search engine and to acquire and develop other profitable business ventures which will require additional funds. As of March 31, 2001 the Company had no available funds. During April 2001, the Company received a \$40,000 loan from a relative of a Board member. The loan bears interest at 14% per annum and is due in April 2002. The Company currently is planning a private placement to raise \$500,000. Two of the Company's board members have guaranteed \$100,000 of the private placement offering. Ultimately, the Company believes it needs to raise an additional \$2,000,000 to fully implement its plans.

There is currently no expected purchase or sale of plant and equipment or expected significant changes in the number of employees. However, if the Company is successful in its fund raising efforts then the Company plans to hire staff and acquire and develop other profitable business ventures.
